## Georgia Wildlife Federation Mission Statement

*To encourage the intelligent management of the life sustaining resources of the earth - its essential water resources - its protective forests and plant life - and its dependent wildlife - and to promote and encourage the knowledge and appreciation of these resources, their interrelationship and wise use, without which there can be little hope for a continuing abundant life. – 1936*

Georgia Wildlife Federation was founded as a sportsman's organization in 1936 and is Georgia's oldest and largest conservation organization. Members of GWF include bird watchers, hunters, anglers, educators, gardeners and all Georgians who are interested in preserving our natural resources and our shooting sports traditions.

Georgia Wildlife Federation believes that the natural resources of this state are economic, social, recreational, and aesthetic assets which should be restored and perpetuated for our posterity. Realizing that this can only be achieved through an aroused and enlightened opinion among the people of Georgia, the Federation is dedicated to these ends:

- To encourage protection and restoration of waters, wildlife, forest and field.
- To restore and rehabilitate wildlife habitats.
- To seek more intensive education of the public in recognizing resource conservation as vital to our way of life and its preservation.
- To recognize and promote hunting and fishing as essential tools of wildlife management.
- To stand firm on promoting the highest standards of outdoor ethics.
- And to develop greater outdoor opportunities for all as essential to character-building and for the physical and spiritual welfare of people throughout the state.
